

Board of Trustees

Thank you for your interest in supporting Gendered Intelligence

Gendered Intelligence is looking to extend the skills and knowledge base of the current Board of Trustees.

We are currently recruiting for three new trustees.

Any successful applicants will need to have an in-depth knowledge about the history of, and the issues that affect trans, nonbinary and gender diverse people and our communities in the UK. They will also need to have a strong commitment to the values and mission of Gendered Intelligence.

This pack contains information to help you decide if you would like this role; and tells you what to do, if you decide you want to apply.

Particular areas of expertise

Whilst we are looking for trustees with a broad range of skills, we are particularly interested in finding people with skills and experience in the following areas:

- Strategic and senior practitioner experience of working with marginalised communities
- Chartered Management Accountancy
- Income generation, marketing and scaling-up initiatives of fee-paying enterprise

Commitment

We currently hold six Board meetings a year and occasional ad hoc meetings as deemed necessary (for example to consider the organisational response to the Covid-19 crisis). We will also be setting up Board sub-committees to facilitate specialist areas such as finance and marketing. In order to facilitate availability to each meeting, to read all necessary paperwork for the meetings, and to be available to advise in your area of expertise, we consider that successful candidates should be able to commit to being available for a minimum of 10 hours per month.

Appointments are for an initial three-year term, renewable for one further term, in the case of Board officials.

1: Diversity

Gendered Intelligence welcomes applications from people of diverse backgrounds, abilities and gender identities. Our policy is to encourage trans people, in particular trans-feminine spectrum people, disabled people and people of colour to apply. We aim to create a positive working environment for all staff, and are working towards a diverse workforce. To support this aim, in 2019 we established a Diversity Working Group to help identify specific areas for improvement. The resulting Action Plan has been approved by our Board. Our staff and Trustee team are working on ways to support existing colleagues, and to attract individuals from all sections of the community.

We recognise that people from different communities may gain skills in different ways, and where the person specification below refers to formal qualifications, we will view equivalent, relevant experience in a positive light. As part of our commitment to increasing diversity, we have included an Equal Opportunities monitoring form with this pack, which is not mandatory, but we hope you will complete.

4: Gendered Intelligence – organisational overview

Gendered Intelligence is a Registered Charity in England and Wales that is committed to the idea that everyone can be more intelligent about gender. Our vision is of a world where people are not constrained by narrow perceptions of gender and where diverse gender expressions are visible and valued. Our mission is to increase understandings of gender diversity and to improve the quality of life of trans people, and young trans people in particular. All of our varied activities are focused on supporting this mission.

BACKGROUND

Our work began in 2006, with a Wellcome Trust grant to run a performing and visual arts project. *Sci:identity - What's the science of sex and gender?* involved a group of young trans and gender questioning people from across the UK. Gendered Intelligence was established in 2008, initially as a Community Interest Company, becoming a Registered Charity in 2019. Whilst our work still includes strong links to the arts, it is much broader now.

AIMS

Gendered Intelligence aims to:

1. Increase the quality of trans people's life experiences, especially those of young trans people
2. Increase understandings of gender diversity

ACTIVITIES

We work with trans, non-binary and gender diverse communities and those who impact on trans lives, including parents/ carers, teachers, policymakers, employers, service providers and other organisations.

Our activities are structured around three departments:

- Youth and Communities Services
- Professional and Educational Services
- Public Engagement and Central Support Services

The areas are closely interlinked, with regular communication between staff: a number of colleagues work across different teams. We believe this shared learning provides a major benefit for all individuals who use GI services whether young people, family and carers, members of the public or professionals in their working lives.

ETHOS

We are a trans-led organisation with a core of skilled, trained and experienced staff, supported by a diverse and vibrant body of volunteers, who are especially active within Youth Work and Public Engagement. We are all committed to being professional, positive and passionate about our work. We want to play a substantial part in encouraging the cultural shift needed to gain understandings of trans and gender variant lives. We place trans people at the heart of our organisation and we believe that a key way to improve the quality of trans people's lives is to educate the people around them about gender diversity.
